(1) No person shall practice or offer to practice land surveying, or use in connection with his name, or otherwise use, assume or advertise any title or description to convey the impression that he is a land surveyor, unless such person has qualified as such by registration as a land surveyor or is otherwise exempted under this chapter.

(2) A person shall be construed to practice or offer to practice land surveying within the meaning and intent of this chapter who practices land surveying, or who by oral or written claim or sign, advertising, letterhead, card or in any other way represents himself to be a land surveyor or through the use of some other title implies that he is such, or who holds himself out as able to perform or who does perform any surveying service or work or any other professional service designated by him as land surveying or generally recognized as such.

(4) The following shall be considered as minimum evidence satisfactory to the Board that the applicant is qualified for registration as a land surveyor:

- (a) Graduation from a university, college, institute or school approved by the Board as of satisfactory standing, including the completion of an approved course in surveying, and a specific record of an additional two years or more of experience in land surveying of a character satisfactory to the Board, and indicating that the applicant is competent to practice land surveying and has passed the prescribed examination; or

(5) In considering the qualifications of applicants as to experience under Subsection (4) of this section, the following may be credited as experience and qualifications:

- (a) Teaching of land surveying in an approved curriculum in a university, college or school approved by the Board as of satisfactory standing;
- (b) Experience and training in the armed services of the United States of America in civil engineering or land surveying; and
- (c) The satisfactory completion of each year of approved curriculum in a school or college approved by the Board as of satisfactory standing, without graduation, shall be considered as equivalent to a year of experience under Subsection (4)(b) or (4)(c) of this section. Graduation in a curriculum other than land surveying from a college or university of recognized standing may be considered equivalent to two years of experience under this chapter; PROVIDED, HOWEVER, that no applicant shall receive credit for more than four years of experience because of undergraduate educational qualifications.

(6) The Board may, upon application and payment of the fee required by this chapter, issue a certificate of registration as a land surveyor, without oral or written examination to any person who holds a current valid certificate of registration, or the equivalent thereof, as such issued by any state, territory or possession of the United States of America, or of any country, provided that the applicant's qualifications meet the requirements of this chapter.

(9) When oral or written examinations are required, they shall be held at such time and place as the Board shall determine. All examinations shall be prescribed by the Board, subject to requirements of this chapter and shall have for their scope the determination of the applicant's ability to practice land surveying. All examinations shall include the subjects of professional ethics and this chapter. The examination, in addition to other matters, shall cover the procedure and rules governing the survey of public lands as set forth in the Manual of Surveying Instructions published by the Bureau of Land Management, United States Department of the Interior, and in the Manual of Surveying Instructions issued by the Division of Surveying and Mapping.

The certificate for a registered land surveyor shall authorize the practice of land surveying. The certificate of registration, as issued by the Board, shall be prima facie evidence that the person named therein is a registered land surveyor entitled to all the rights and privileges of such, while such certificate remains unrevoked or unexpired.

(11) Certificates of registration shall expire on the last day of the month of December of the third year following their issuance or renewal and become invalid at the end of such day unless renewed. It shall be the duty of the Board to notify every person registered under this chapter of the date of expiration of his certificate of registration and the amount of the fee that shall be required for its renewal. Such notices shall be mailed not later than the first week of December each year. Renewal may be effected at any time during the month of December by payment of a renewal fee of \$15. The failure on the part of any registrant to renew his certificate in the month of December of the year of expiration shall not deprive such person of the right of renewal, but the renewal fee to be paid after the month of December shall be increased by \$1 for each month or fraction of a month that payment of renewal is delayed; PROVIDED, HOWEVER, that the maximum fee for delayed renewal shall not exceed \$10. The failure of the Board to notify a registrant of the date of the expiration of his certificate or the amount of the renewal fee shall not extend the duration of a certificate of registration.

(12) Every registrant, upon being issued a certificate of registration, may obtain a seal of a design authorized by the Board, bearing the registrant's name and the legend "Registered Land Surveyor," as the case may be, and shall provide space for stating the serial number and date of expiration of the certificate of registration. Plans, specifications, plats, and reports prepared by a registrant shall be stamped with such seal when filed with the Pohnpei Government during the term of the registrant's registration, and shall also show the serial number and date of expiration of such certificate of registration. It shall be a misdemeanor, conviction of which shall be punishable by imprisonment not to exceed six months or by a fine not to exceed \$1,000, or both such fine and imprisonment, for anyone to stamp or seal any document with such seal after the certificate of registration of the person named thereon has expired or has been revoked, unless such certificate shall have been renewed and reissued.

(13) The Board shall have the power, duty, and authority to investigate violations of this chapter and may suspend or revoke a certificate of registration on any of the following grounds:

- (a) The registrant is practicing in violation of this chapter; or

- (e) The registrant has been convicted of an offense arising from or in connection with the practice of land surveying, or any offense involving moral turpitude, in which case a certified copy of the record of conviction shall be conclusive evidence thereof; or
- (f) The registrant has violated any provision of this chapter; or
- (g) The registrant has aided and abetted in the practice of land surveying, any person not duly authorized to practice land surveying except as provided under exemption of this chapter; or
- (h) The registrant has been guilty of fraud or deceit, or of gross negligence, incompetence or misconduct in the practice of land surveying; or
- (i) The registrant has permitted his seal to be affixed to any plans, specifications or drawings that were not prepared by him or under his personal supervision, by his employee or subordinate.

(14) Proceedings under this chapter may be initiated upon complaint by any person or by the Board. All charges shall be in writing and sworn to by the person making them. All charges, unless dismissed by the Board as unfounded or trivial, shall be heard by the Board within three months after the date on which they have been referred. The time and place of such hearing shall be fixed by the Board, and a copy of the charges, together with a notice for the hearing shall be personally served upon or mailed to the last known address of such registrant at least 30 days prior to the scheduled hearing. At any hearing, the registrant shall have the right to appear personally and may have counsel, to cross-examine witnesses appearing against him, and to produce evidence and witnesses in his own defense.

(15) The Board, for reasons it deems sufficient, may reissue a certificate of registration to any person whose certificate has been revoked, provided that the majority of Board members present at a meeting vote in favor of such reissuance. A new certificate of registration may be issued to any person whose certificate has been revoked, lost, destroyed or mutilated, subject to the rules of the Board and upon payment of a fee of \$10.

(16) The practice of land surveying may be performed by employees of a proprietorship, partnership or corporation engaged in construction, manufacturing, transportation, distribution or communications insofar as such land surveying is involved in its operations, provided that it is performed by or under the supervision of a land surveyor in responsible charge, registered under this chapter.

(17) The practice or offer to practice land surveying for the public, as defined in this chapter, by individuals registered under this law through a corporation as officers, employees or agents, is permitted subject to this chapter, provided that all personnel who act in its behalf as land surveyors in responsible charge are registered under this chapter, or are persons lawfully practicing under this law. In case this practice is done through a corporation organized after the effective date of this chapter [June 28, 1982], it shall be required at all times that the president and a majority of the officers and directors are registered land surveyors, and further, that said corporation shall have been issued a certificate of authorization by the Board as provided in this chapter.

(18) A corporation desiring a certificate of authorization shall file with the Board an application, using a form provided by the Board, listing the names and addresses of all officers and board members of the corporation, and also, of an individual or individuals duly registered to practice land surveying who shall be in responsible charge, and other information required by the Board. A non-refundable fee of \$25 shall accompany each such application. The same form, giving the same information, must

accompany an annual renewal fee of \$10. In the event there shall be a change in any of these persons during the year, such change shall be designated on the same form and filed with the Board within 30 days after the effective date of the change. If all of the requirements of this section are met, the Board may issue a certificate of authorization to such corporation.

(19) No corporation authorized to practice land surveying under this chapter shall be relieved of responsibility for the conduct or acts of its agents, employees or officers by reasons of its compliance with this section, nor shall any individual practicing land surveying be relieved of responsibility for services performed by reason of his employment or relationship with such corporation. All final drawings, specifications, plans, plats, reports or other papers or documents involving the practice of land surveying which shall have been prepared or approved for the use of such corporation, or for delivery by it to any person, or for public record shall be dated and bear the signature and seal of the land surveyor who prepared or approved them.
